Safety Guidelines & Tips

Safety Guidelines

Handling Milk Products Safely

- Always refrigerate milk immediately after purchase.
- Keep milk at or below 4°C (40°F).
- Do not leave milk at room temperature for more than 2 hours.
- Check expiration dates and consume before they pass.
- Store milk in the coldest part of the refrigerator, not the door.
- Avoid cross-contamination with other foods.

Tips for Freshness

- Seal milk containers tightly after each use.
- Do not return unused milk to the original container.
- If milk smells sour or looks curdled, do not consume it.
- Consider smaller containers if you use milk infrequently.

Delivery Safety

- Ensure someone is available to receive the delivery promptly.

Task 03 – Epics & User Stories

Milco App – Epics & User Stories (Ordered)

Epic 1: Customer Registration & Secure Login

- As a customer, I need to register using my NIC so that my account is uniquely identified.
- As a customer, I need to enter a verified address during registration so that Milco can confirm my delivery eligibility.
- As a customer, I need to log in securely so that my personal data remains protected.

Epic 1: Quick Login using Phone Number

- As a customer, I need to log in using my phone number so that I can access ordering quickly.
- As a customer, I need to verify my phone number using an OTP so that my login is secure.
- As a customer, I need to continue after phone verification so that I can place orders without complex registration steps.

Epic 2: Profile & Delivery Location Management

- As a customer, I need to save my delivery address details so that I don't have to re-enter them for every order.
- As a customer, I need to pin my delivery location on a map so that delivery personnel can reach the correct location.
- As a customer, I need to update my profile information so that my contact and address details stay accurate.

Epic 3: Agent/Retailer Discovery (Map + Availability)

- As a customer, I need to see nearby agents on a map so that I can choose the closest agent.
- As a customer, I need to view which agents have stock available so that I don't place orders that can't be fulfilled.
- As a customer, I need to filter agents by product categories (milk, ice cream, etc.) so that I can quickly find what I need.
- As a customer, I need to view agent details (name, distance, open/closed, contact) so that I can make the best selection.

Epic 4: Product Browsing, Cart & Order Building

- As a customer, I need to browse products available at a selected agent so that I can order items that the agent can supply.
- As a customer, I need to add products to a cart so that I can build my order before checkout.
- As a customer, I need to change quantities or remove items from the cart so that my order matches what I want.
- As a customer, I need to see the order total so that I understand the cost before placing the order.

Epic 5: Order Placement & Confirmation

- As a customer, I need to select an agent, products, and delivery location so that the order is placed correctly.
- As a customer, I need to review my order summary before confirming so that I can avoid mistakes.
- As a customer, I need to place a delivery request so that the agent can process and dispatch the order.
- As a customer, I need to receive an order confirmation so that I know the request was submitted successfully.

Epic 6: Payments (Card / Cash on Delivery)

- As a customer, I need to choose card or cash on delivery so that I can pay using my preferred method.
- As a customer, I need to complete card payment securely so that my payment information is protected.
- As a customer, I need to get payment confirmation/receipt so that I have proof of payment.
- As an agent, I need to see the selected payment method so that I can prepare the order accordingly (COD vs paid).

Epic 7: Agent/Retailer Order Handling (Accept/Reject + Stock Updates)

- As an agent, I need to update stock availability so that customers see accurate product availability.
- As an agent, I need to receive delivery requests so that I can respond quickly.
- As an agent, I need to accept or reject an order so that I can manage stock and capacity.
- As an agent, I need to provide a reason when rejecting an order so that the customer understands what happened.
- As an agent, I need to confirm items and reserve stock for accepted orders so that the same stock isn't sold twice.

Epic 8: Delivery Assignment & Delivery Operations

- As an agent, I need to assign a delivery person to an accepted order so that the order can be delivered.

- As a delivery person, I need to receive delivery assignments so that I know which deliveries to complete.
- As a delivery person, I need to view customer location and contact details so that I can deliver successfully.
- As a delivery person, I need to update delivery status (e.g., picked up, on the way, delivered) so that everyone knows the current progress.

Epic 9: Order Tracking & Notifications

- As a customer, I need to track my order status in real time so that I know what's happening.
- As a customer, I need to see the delivery person's live location so that I can estimate arrival time.
- As a customer, I need to receive notifications for key updates (accepted, dispatched, on the way, delivered) so that I stay informed without checking repeatedly.
- As an agent, I need to see delivery progress so that I can ensure orders are completed properly.

Epic 10: Delivery Confirmation & Proof of Delivery

- As a customer, I need to confirm delivery received so that the order can be closed correctly.
- As a delivery person, I need to mark an order as delivered so that the system reflects completion.
- As an agent, I need to see delivery completion status so that I can reconcile orders and stock.

Epic 11: Safety Guidelines & Tips

- As a customer, I need to view safety instructions so that I can handle milk products safely.
- As a customer, I need to access safety tips anytime so that I can refer to them when needed.

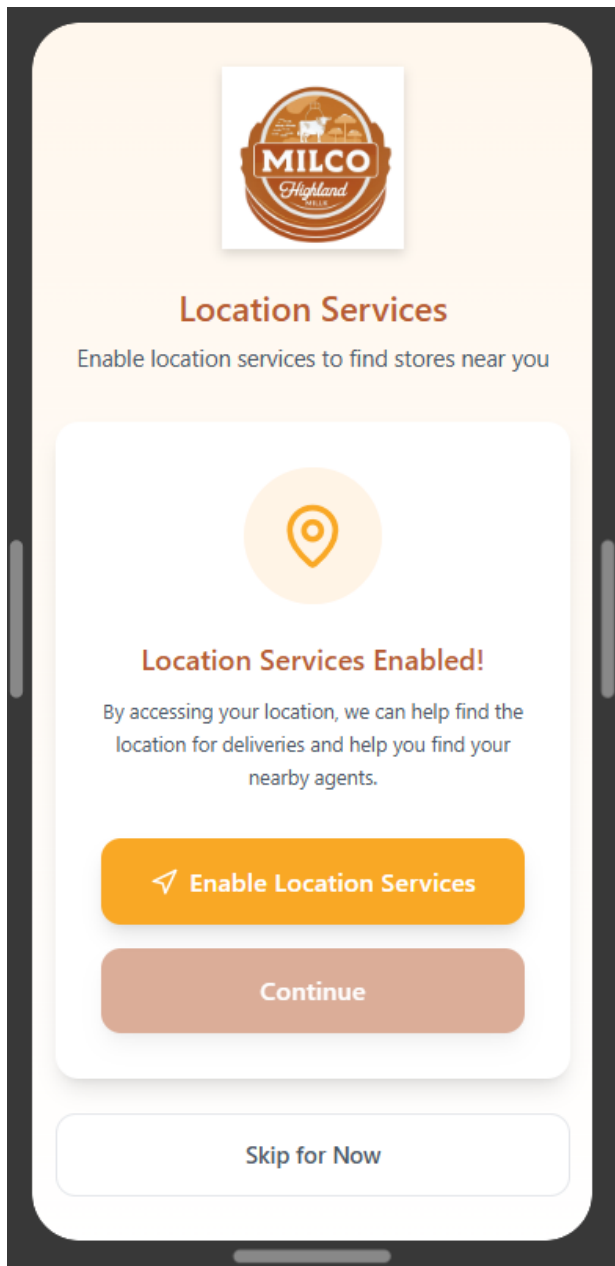

Epic 12: Support & Post-Delivery Feedback

- As a customer, I need to contact Milco support via email so that I can get help for issues or questions.
- As a customer, I need to submit feedback after delivery so that Milco can improve service quality.
- As a customer, I need to rate the delivery experience so that good service is recognized and problems are identified.
- As a support/admin user, I need to review feedback submissions so that common issues can be addressed.
